

Aries (Ram)

MARCH - 2020

Did you know?

- Aries is Latin for Ram, and is represented by the animal's horns.
- Aries has six stars. Alpha, Beta and Gamma Arietis are its brightest stars.
- Aries marks the beginning of Spring Equinox, kicking off the new zodiacal year and thus is the first sign in the zodiac.
- The constellation is associated with the story of the Golden Fleece in Greek mythology.
- Aries is one of the 88 constellations within the celestial sphere and one of the 42 constellations that represents an animal.
