

# Virgo: The Virgin

## AUGUST - 2020

### Did you know?

- Virgo is one of the 17 constellations that represents a mythological character.
- It is the largest constellation in the Zodiac, and the second largest in the whole of the celestial sphere or the entire night sky.
- It has the brightest Quasar (a massive and extremely remote celestial object, which emits exceptionally large amounts of energy, and typically has a star-like image in a telescope) and has a number of clusters of galaxies closest to Earth.
- As the only female figure of the zodiac, Virgo is associated with Justice and Agriculture.
- Virgo consists of 15 main stars, among which the brightest is Spica.
- It is bordered by the constellations Serpens, Bootes, Libra, Coma Berenices, Hydra, Leo, Corvus and Crater.
