

CITRUS FRUITS

Did you know?

- Oranges, grapefruit, lemons, limes, and citrons are all types of citrus fruits.
- Citrus fruits have a juicy pulp inside a tough leathery skin known as hesperidium. They grow on trees, bushes, or shrubs.
- A single citrus plant can have as many as 60,000 flowers, but only 1% of those flowers will turn into fruit.
- Not all oranges are orange in colour, as the citrus fruit needs to get cold to turn orange or yellow.
- There are over 600 varieties of oranges in the world.
- It was Christopher Columbus who brought the first citrus to North America in 1493.
